After 05/27/2022: on site payment 100 €uros more

Welcome to the

17th European Dragster

Ladies and gentlemen Drivers, team members and supporters.

Participants will be welcomed from 2:00 p.m. on Friday and the quarter-mile will open around 9:00 a.m. on Saturday. For any additional information, please contact us.

On-site camping is possible overnight from Friday to Saturday and Saturday to Sunday. The site has showers and toilets but in limited numbers. The catering located near the start line will provide a fast and economical catering service.

Precise rules regarding installation in the paddock will be given to you by the track staff. Follow them !!

- Vehicles: only vehicles participating in the runs will be authorized to be placed on the asphalt. All other accompanying vehicles must remain on the grass. This is to facilitate traffic during the event.

- No "campfires" on the ground! Barbecues are of course allowed...

- Think about your behavior and the image you give when you go to town!! Villages don't need "savage hordes"! Moderate your ardor and save your energy for the runs. It is there and only there that you can amaze us...

The races organized by the Association Trophy Dragster ATD are intended to be convivial, respecting sportsmanship and decorum, in the greatest tradition of our sport.

You have a duty to respect the ATD organization, the officials, the FFSA Commissioners, as well as the volunteers. They are, like you, passionate people who mobilize for the success of the competition.

There are a few points on which the organization will be intransigent:

- Behaviour: any excessive, brutal, unsportsmanlike, exuberant behavior or behavior likely to harm the smooth running of the event will be penalized (by banning access to the track, for example, etc.)

- Failure to comply with the instructions given by the organizers: whether safety instructions, paddock organization or the running of the event.

- No burn out or test outside the areas provided for this purpose.

For the smooth running of the competition as well as for the respect of the brand image of the ATD and our partners, we ask you to scrupulously observe these few rules of good conduct (non-exhaustive list):

- Garbage bags are available at the entrance, you will also have to bring your garbage back to the containers and even better to the dumpster.

- *Outside the competition area: drive at a walk (10 km/h).*
- ***Pocket Bikes** and other noisy and/or dangerous machines are prohibited on the site, including in the paddocks.*
- *No noise from 10 p.m. to 8 a.m.*
- *The wearing of numbered bracelets is compulsory for the driver and the members of his team throughout the competition.*
- *Pre-grids are only allowed to the organization, officials and emergency and security services.*
- *At the call of your category, present yourself quickly in the pre-grid. (In pairs already formed during the playoffs).*
- *Access is authorized to you only during your runs with the authorized mechanic(s).*
- *Immediately after the run, the mechanics must immediately evacuate the pre-grid.*
- *The courtesy lane is not an obligation but it is courteous to adhere to it.*
- *Any incident, special or unusual request concerning the race must be communicated to the College of the FFSA, the only body authorized to receive them.*
- *Sponsor stickers are mandatory on vehicles, scrupulously respect the specifications given to you.*

- Reminder to ET Bracket categories:

The times must be displayed on the vehicle on the timekeeper side, in figures at least 8cm high (suitable specific equipment is strongly recommended)

- The engine or gearbox oil change in the paddocks must be done on waterproof tarpaulins (compulsory). You must take away your used fluids and leave the place clean. 1 homologated fire extinguisher mandatory in each pit. (6 kg minimum) for all categories.

- In all cases, the driver is responsible for his entire team.

- Any damage caused by a driver will be charged directly to the driver.

- Any dangerous or unsportsmanlike behavior is likely to be sanctioned. This sanction can go as far as immediate exclusion at any time of the day or night. This exclusion may be final, including for subsequent events organized by the ATD. An exclusion cannot under any circumstances justify a refund of entry fees or other sums incurred.

- We remind you that the FFSA is our supervisory authority. You must comply with the general regulations of the FFSA. <http://www.ffsa.org/>

- In general, be respectful of the materials and infrastructures made available to you. Any deterioration, soiling, voluntary or not, will involve you in financial compensation for the damage.

News 2022

- 2 New categories open to all following the request of the German Championship to integrate the Trophy: Super Gas and Super Comp, they depend on Pro ET Pro and Super Pro ET regulations.

- News regulations:

- Pro ET: vehicles after 2010 unmodified 10s without roll bars.

- Possibility to register in two different categories with the same car (see FFSA general regulations)

- General: implementation of regulations for the braking part of the track see on our website: <https://association-trophee-dragster.com/en/28-janvier-2022-regles-de-securite-clastres-atd/>

Happy race to all of you !

And now, Ladies and Gentlemen, start your engines!
